TAVOLARTE Design Harry Hersche

Emotions which are enduring brings people together. The form and topic strengthen roots and provide support. May be changed with a basis that stays the same. Two oak plates engraved into the surface resemble the classic table cloth. The undersides which are light in appearance and coloured in sepia and umbra rise up towards the edges. The central substructure out of solid oak accommodates a specially conceived bolt mechanism which allows the plates to easily be changed and secured.
